# Bài tập tổng hợp

## Yêu cầu:

- Sử dụng Bootstrap để xây dựng layout có responsive, đầy đủ hiệu ứng giống layout mẫu
- Chỉ cần làm trang home
- Làm cả 2 theme: light và dark
- Khi nộp bài các nhóm nhớ nộp kèm:
  - Link github chứa source code
  - Link online của dự án (đưa web lên host free: github, vercel, netlify )
  - Link youtube quay demo dự án.
  - File phân chia công việc trong nhóm (File tham khảo: <https://tinyurl.com/3exwu438> ) – lưu chung github với source code
